Advance Directive Policy

Due to the nature of procedures and the generally healthy status of patients seen at the Center it is the conscious decision and policy of the Center **not** to withhold lifesaving actions in the event of life threatening emergencies. In accordance with Nebraska HHS Regulation and Licensure 7-006.04, this will serve as notice to the patient, the patient's representative, or surrogate of the policy limiting advance directives. In the event a life-threatening emergency occurs (i.e. respiratory or cardiac arrest), the Center will perform emergency procedures as necessary to stabilize the patient and then transfer the patient and the advance directive documentation, if provided, to an acute health care facility where the attending physician, the patient's representative or surrogate and family can make an informed decision regarding the patient's well-being.

To comply with state law, during the registration process, you will be asked if you have an advance directive. Please bring a copy if you have one. If you do not have an advance directive and would like further information please call us at 402-505-8708. Upon request we will mail information regarding advance directives or will have it available to you at registration.
